

## PRODUCT SAFETY WARNING

**Issue:** Unified Marine, Inc. has discovered that a small number of the Bass Pro 1500 pound trailer jacks have a potential hazard. When the trailer jack is loaded in an upright position lateral movement to left or right can cause slippage of an engagement pin resulting in it being dislodged causing the jack to fall. Based on inspection of stock if the trailer jacks have been used previously without issue, then the problem is not likely to occur upon future usage.

**Description of Products:** There are three Bass Pro 1500 pound trailer jacks. These trailer jacks were available in the Bass Pro Shops stores and through the Bass Pro Shops website, and were sold from August 1, 2015 through July 15, 2016.

**Bass Pro Shops SKU    Description    Capacity    Model Number    UPC No.**

Bass Pro Shops SKU	Description	Capacity	Model Number	UPC No.
949326	BIG WHEEL TRAILER JACK	1500 LB	50081535	737765815357
