

**CUSTOMER PRODUCT BULLETIN
PEDAL BOAT WEIGHT CAPACITY**

Dear Bass Pro Shops Customer,

According to our records, you purchased a Sun Dolphin “Sun Slider” or a “Water Wheeler” pedal boat through Bass Pro Shops. These boats are manufactured by KL Outdoors.

KL Outdoors originally rated the Sun Slider and Water Wheeler boats as capable of carrying 800 or 825 pounds. According to Bass Pro Shops’ investigation, the boats were marked with weight capacities ranging from 550 to 825 pounds. KL Outdoors has agreed with a Coast Guard recommendation to lower the rating to **545 pounds maximum carrying capacity**. Attached to this letter is a table listing the model numbers, and the original and revised weight capacity ratings for these pedal boats. This is not a safety recall by KL Outdoors or the Coast Guard. The change is the result of a new interpretation of the Coast Guard testing regulations.

Bass Pro Shops wants you to be aware of this change and asks that **you limit the combined passenger and equipment weight in your pedal boat to no more than 545 pounds**. As with any boat, all pedal boat passengers should wear an approved personal flotation device and follow all manufacturer’s warnings.

If you have any questions about this Customer Product Bulletin, or are unsatisfied with this product, please call Bass Pro Shops’ customer service at 1-800-227-7776, or through the “Contact Us” link at BassPro.com . If you purchased one of these boats and later sold it, please let us know the current owner so that we can try to contact them.

Bass Pro Shops’ highest priorities are the safety and satisfaction of our customers. We apologize for any inconvenience. Thank you for shopping with Bass Pro Shops.

Sincerely,

Bass Pro Shops.
